The Globe shippers, for reasons they deemed good, neither wanted nor asked the commission to handle their work but did ask and insist that Mr. Jones plan and supervise their complaints before the federal commission

It was the intention of the promoters of the traffic association to secure outside aid in correcting interstate rates and for this purpose a member went to San Francisco. He was informed there that in Mr. Jones the state had an able rate man. The member came to Phoenix and learning that Mr. Jones was in Los Angeles on his vacation proceeded there and met Mr. Jones for the first time and stated their case. Mr. Jones said the commission would take up the matter and that he would give it his best attention. Later by invitation Mr. Jones visited Globe and renewed his offer on behalf of the commission, in the presence of the principal directors and officers. Mr. Jones was informed that if he declined to act the association would look elsewhere; that the association would bandle its affairs inlependent of the commission.
